

IG 1 Vision

1. What do you want to see in this upcoming year in IG?

To create a close-knit, Christ-centered IG that strikes a balance between learning God's word and applying it together in our lives. We would like to see an IG that is spiritually thriving, by growing not only in our relationships with each other but helping each other grow closer to God. Through our day to day struggles, we should offer sympathy and support, but also lift our problems up to God for guidance.

2. Why do you want to see this?

Often times it is very easy to draw a line between "Bible/God" time and the rest of your life, when in reality it should be our goal to integrate the two together. The best way to really internalize what we learn about God's character and desire for us to live our lives is to put it into practice within our lives.

3. What are some practical ways to implement the vision?

Keeping each other accountable in our applications of what we learned through living it out in our lives. This could be achieved by not only understanding the lessons but discussing the ways in which we can apply them and trying our best to hold each other accountable for doing this.

1. what are the characteristics of a spiritually thriving IG? how do we get there?

1.5 (extension of #1) what kind of relationship do you want to foster within the IG? You mentioned "Christ-centered" and "close-knit". What does it look like exactly?

2. how do we journey together as an IG, both within and outside of CCF time?
